Who We Are

Founded in 2022, Morgan Techfest is a student-led nonprofit organization based at Morgan State University. Our mission is to inspire, educate, and empower the next generation of technology and business leaders, with a steadfast commitment to supporting individuals from under represented communities.

Impact Reach

Proven Reach: Over 190 students from seven premier institutions, including Morgan State, Howard University, Bowie State, Towson, UMBC, and UMD, attended our recent events.

Top-Tier Corporate Ecosystem: Our past sponsors and participants include industry giants like Google, Amazon, AWS, Capital One, Lincoln Financial, Ripple, Leidos, Northrop Grumman, and Kyndryl.

Real Outcomes: Our conference directly facilitates internships, full-time career placements, research collaborations, and startup mentorship.

Tech Case & Innovation Expo

The event combines an innovation challenge and a technology showcase, where student teams develop and present intelligent, technology-driven solutions to real-world challenges in areas such as Healthcare, Finance, Transportation, and Sustainability under the Future Flux theme. Participants also exhibit hardware prototypes, research projects, and innovative solutions, which are evaluated by industry experts for their technical excellence, creativity, and practical impact.

Core Sponsorship Tiers

We offer four structured levels of investment, each carefully calibrated to maximize your brand visibility, thought leadership, and talent acquisition goals.
