FUTURE FLUX

BUILDING THE INTELLIGENT WORLD

We are living through a period of extraordinary technological change. Artificial intelligence, intelligent systems, automation, data, cybersecurity, and emerging technologies are reshaping how we learn, work, create, and solve problems.

Future Flux: Building the Intelligent World challenges us to look beyond adapting to change and consider the role we can play in shaping what comes next.

At Morgan TechFest 2026, that vision comes to life through ideas, research, hands-on learning, competition, collaboration, and connections across academia, industry, and community.

The future is not simply something we inherit. It is something we build.

A NOTE FROM THE PRESIDENT

Welcome to Morgan TechFest 2026.

This year's conference represents what becomes possible when people come together around a shared vision. I am deeply grateful to our founder, team, advisors, university leadership, sponsors, partners, speakers, volunteers, and everyone whose contributions have brought Future Flux to life.

As you experience today's conversations, competitions, research, workshops, and connections, I hope you leave inspired not only by the future of technology, but by the possibilities you have to help shape it.

Welcome to Future Flux.

Abiola O Ajala

President, Morgan TechFest 2026

ABOUT MORGAN TECHFEST

Morgan TechFest is an annual technology and innovation conference hosted at Morgan State University and open to students from any school. It brings together students, faculty, researchers, industry professionals, entrepreneurs, and technology leaders to explore emerging technologies, showcase innovation, build professional connections, and engage with real-world opportunities.

Founded in 2022, Morgan TechFest was created to help bridge the gap between academic learning and the rapidly changing demands of industry. Over time, it has grown into an interdisciplinary platform where students can present research and technology-driven projects, learn directly from professionals, participate in hands-on experiences, and build relationships that extend beyond the classroom.

By 2024, students from other universities—including Towson University and the University of Maryland—were traveling to Morgan State to participate, expanding Morgan TechFest into a growing multi-university technology community.

WHAT TECHFEST OFFERS

Innovation

Technology

Community

TECHNOLOGY IS CHANGING. SO ARE WE.

Morgan TechFest connects students with the people, ideas, and technologies shaping tomorrow.

Where curiosity meets technology,
opportunity begins.

OUR JOURNEY 2022 — 2026

THE BEGINNING

Empowering Future Technologies

Morgan TechFest launches at Morgan State University as a new student-led initiative designed to connect academic learning, technology, career exploration, and industry engagement.

2022

2023

BUILDING MOMENTUM

Technology of the Future

Morgan TechFest expands into a two-day experience, connecting students with technology professionals and organizations while creating opportunities for learning, networking, innovation, and career development.

EXPANDING THE VISION

Igniting Innovation

Morgan TechFest continues to grow as an interdisciplinary technology platform, featuring student research and innovative projects across areas including AI, robotics, cybersecurity, data science, VR, blockchain, software development, engineering, business, and education technology. Students from universities beyond Morgan also participate.

2024

2025

TRANSITION

Reflect • Realign • Prepare

A transition year creates space to reflect on the journey, strengthen the foundation, and prepare for Morgan TechFest's next chapter.

A NEW CHAPTER

Future Flux

Morgan TechFest returns with an expanded experience centered on innovation, competition, research, industry engagement, and collaboration—including the Tech Case Competition and Innovation Expo.

2026

BUILT BY THOUGHT LEADERS THE PEOPLE BEHIND MORGAN TECHFEST

Morgan TechFest has always been a collective effort. Since 2022, successive teams of student leaders, advisors, contributors, partners, and supporters have carried the conference forward—each adding something to the foundation built before them.

Founder, Morgan TechFest

OPEYEMI T. ADENIRAN

Opeyemi T. Adeniran founded Morgan TechFest in 2022 after recognizing a growing gap between academic preparation and the rapidly changing technology industry. She envisioned a platform where students could discover how technology was transforming their fields, build meaningful professional relationships, showcase their work, and develop ideas with real-world relevance.

OUR KAIZEN EVOLUTION: THE TEAMS THAT BUILT OUR JOURNEY

2022

Opeyemi A, Chelsea A, Godswill O, Jose D, Barisi N, Abby A

2023

Opeyemi A, Femi M, Seyifunmi W, Keezi A, Beatrice O, Kendell C, Noorula A, Abiola A, Abby A, Ebun O

2024

Femi M, Seyifunmi W, Oluwapemisin A, Keezi A, Beatrice O, Terell R, Damilola A, Tunmise E, Jaunel P, Ayomide A, Abdulai H, Theophilus A, Kendell C, Marissa S, Ebun O

2026

Abiola A, Kelechukwu O, Sarah A, Daniel O, Nishan K, Gbolahan A, Olorunfunmi S, Celina D, Glory A

Four years, dozens of perspectives, and one relentless pursuit: a journey shaped by the collective growth of every individual who stepped up to refine and elevate this program.

DISTINGUISHED GUESTS & LEADERSHIP

Morgan TechFest 2026 is honored to recognize distinguished leaders and representatives whose commitment to public service, education, innovation, and community strengthens the connection between government, academia, and the next generation of innovators.

STATE OF MARYLAND

OFFICE OF THE GOVERNOR

THE HONORABLE

WES MOORE

Governor of Maryland

CITY OF BALTIMORE

OFFICE OF THE MAYOR

THE HONORABLE

BRANDON M. SCOTT

Mayor of Baltimore

Represented at Morgan TechFest 2026 by:

Ms. Maureen Wambui

African Affairs Commissioner,
Governor's Office of Community
Initiatives

Dr. Antwan C. Brown

Administrative Director
Governor's Commission on
African Affairs

Ms. Masuma Islam Lonczak

Deputy Director,
Mayor's Office of Immigrant
Affairs

MORGAN STATE UNIVERSITY LEADERSHIP

David K. Wilson

President

Dr. Don-Terry Veal

Vice President for State and
Federal Relations
& Chief of Staff

Dr. Hongtao Yu

Provost and Senior Vice
President

CONFERENCE AGENDA / SCHEDULE

09:00 - 09:50 AM	Breakfast & registration
09:50 - 10:20 AM	Opening Ceremony - Room 104 - Auditorium Lower Level - Office of the President - Mayor of Baltimore - Governor of Maryland
10:20 - 10:50 AM	Keynote presentation - Ms. Alexis Robinson - Principal Product Manager Amazon - Room 104 - Auditorium Lower Level
10:50 - 11:10 AM	Program & competition overview Room 104 - Auditorium Lower Level
11:10 AM - 12:10 PM	Innovation expo presentations Second Floor
12:10 - 12:45 PM	Panel discussion - "Reinventing Industries" - Moderated by : Ms. Juliana Talabi - Panelists: Femi Adeyeye, Dr. Jamell Dacon, Eytayo Ogunmola - Room 104 - Auditorium Lower Level
12:45 - 1:45 PM	Lunch Atrium
01:45 - 02:45 PM	Workshop sessions - Build like a full-stack product manager on Loveable Room 110 - How To Land A Six Figure Career In Tech Room 112 - Kiro Room 105
02:45 - 03:45 PM	Tech case competition presentations Room 104 - Auditorium Lower Level
03:45 - 04:45 PM	Award ceremony & closing remarks Room 104 - Auditorium Lower Level
04:45 - 06:00 PM	Refreshments & informal networking Atrium

TECH CASE COMPETITION

THINK • BUILD • PITCH • SOLVE

Where ideas meet real-world challenges

The Morgan TechFest Case Competition brings student teams together to tackle a technology-driven business challenge, develop practical solutions and present their ideas before a panel of judges.

One big question:

How might a business with fewer than 20 employees adopt AI in a way that fits its actual workflow, creates measurable value and can be sustained without a technical team?

- Form a team of 2-4 students
- Pick one case study sector:
 - ☐ Independent Consumer Business
 - ☐ Specialty-Crop Farm
 - ☐ Home-Health Agency
- Analyse the case
- Use the provided pitch deck to document your solution
- Present your pitch to the judges

TECH CASE AWARDS

1st Place
\$1,200

2nd Place
\$1,000

3rd Place
\$800

THINGS TO NOTE

Judges look for a grounded decision, a usable solution, and a credible path from first use to sustained value.

Tie-breaker: higher Feasibility and Implementation Score, then Workflow Understanding and Evidence.

INNOVATION EXPO

RESEARCH • CREATE • SHOWCASE • CONNECT

Ideas deserve to be seen

The Morgan Tech Fest Innovation Expo provides a platform for students to showcase research, technology projects, prototypes and innovative ideas to an audience of peers, faculty, industry professionals and technology leaders.

Presenters have the opportunity to communicate their work, receive feedback, make new connections and introduce their ideas to a broader technology community.

INNOVATION EXPO AWARDS

1st Place
\$1,500

2nd Place
\$900

3rd Place
\$600

TECHNOLOGY WITH PURPOSE BEYOND THE CONFERENCE

As part of Morgan Tech Fest 2026, our team extended the spirit of the conference beyond campus through a community give-back initiative supporting young learners in Baltimore.

The initiative reflects a simple belief: building the intelligent world also means creating opportunities, engaging curiosity and investing in the communities that will help shape its future.

WHO WE SERVED

Park Heights Academy

WHAT WE DID

Back-to-school supplies

OUR COMMUNITY

Baltimore, Maryland

WHY IT MATTERS

Technology conferences can create conversations for a day. Community investment can help create possibilities that last much longer.

ACCESS | OPPORTUNITY | POSSIBILITY

The future we build should create opportunities for everyone

POWERED BY PARTNERSHIP COLLABORATION MAKES THE FUTURE POSSIBLE

Morgan TechFest 2026 is made possible through the collective support of our university, sponsors, partners, collaborators, and community. Their investment in students, innovation, professional development, and opportunity helps transform ideas into experiences that reach far beyond the conference.
