

Tech Case Competition

SOLUTION PRESENTATION • TEMPLATE

Team Name

Track: Health / Education / Transportation / Finance / Energy & Sustainability / Workforce

01 · PROBLEM UNDERSTANDING & RELEVANCE

The Problem

- Define the real-world problem clearly and concisely.
- Who is affected, and why does it matter now?
- How it aligns with your selected track.

02 · SOLUTION DESIGN & INNOVATION

Our Solution

- Your proposed solution and how it addresses the problem.
- What makes it innovative or different from existing approaches.
- Why it is clear, structured, and feasible (no prototype required).

03 · TECHNICAL APPLICATION & FEASIBILITY

Technical Approach

- How technology is applied within your field.
- Your implementation approach / architecture.
- Evidence that the solution is feasible and can scale.

04 · IMPACT, VALUE & SCALABILITY

Impact & Value

- The real-world impact if implemented.
- The value delivered to users / stakeholders.
- How the solution grows and scales over time.

WRAP-UP

Summary & Q&A

- Recap the problem, your solution, and its impact.
- Keep delivery clear, structured, and engaging — this is judged throughout.
- Team contact: name · email · department.
